

Add Taste Club to your iPhone

Create a Taste Club app icon on your Home Screen and open it with one tap.

Before you start

- 1 Use your iPhone.
- 2 Have the Taste Club website address ready.
- 3 Use Safari for these steps.

It takes about one minute.

You do not need to visit the App Store.

STEPS 1-2

Open Taste Club

Start in Safari, then open the Taste Club website.

1 Open Safari

Find the blue compass icon on your iPhone and tap it.

2 Enter the address

Tap the address bar, type the address shown below, then tap Go.

izakayatastecub.base44.app

Look for this icon

Safari is usually on your Home Screen or in App Library.

Open the Share menu

The Share menu contains the option that adds the website to your Home Screen.

3 Tap Share

Tap the square with an upward arrow. If you see a More button first, tap More, then Share.

4 Choose Add to Home Screen

Scroll down the Share menu and tap Add to Home Screen.

The Share icon

A square with an arrow.

Add Taste Club

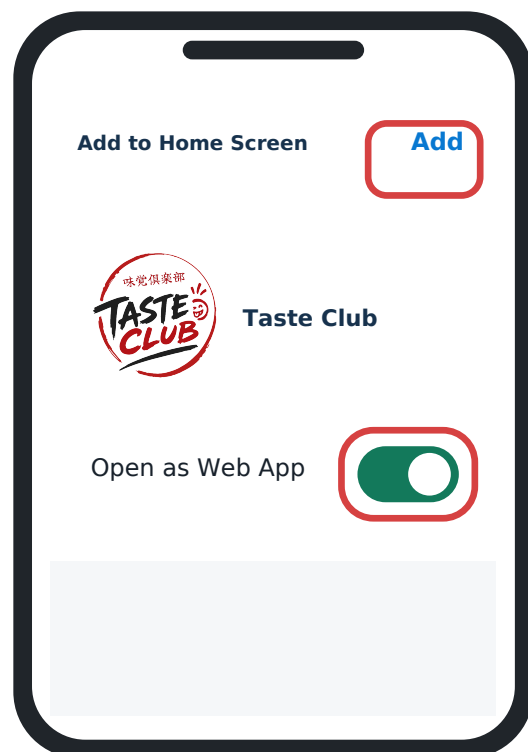

Check the final options, then add the Taste Club icon.

5 Turn on Open as Web App

Make sure the switch beside Open as Web App is on. It will normally appear coloured.

6 Tap Add

Tap Add in the top-right corner. The new icon will appear on your Home Screen.

Done

Return to your Home Screen.
Tap the Taste Club icon
to open the app.

If something looks different

Your iPhone may show slightly different button positions. The names of the options should be the same.

I cannot see Add to Home Screen

Scroll to the bottom of the Share menu. Tap Edit Actions, then add or select Add to Home Screen.

I cannot see the Share icon

Look for a More button, usually shown as three dots. Tap it, then tap Share.

Can I change the app name?

Yes. Keep or enter Taste Club as the name before you tap Add.

How do I remove it?

Touch and hold the icon on your Home Screen, tap Remove App, then confirm.
