

Add Taste Club to your Android

Create a Taste Club app icon on your Home Screen and open it with one tap.

Before you start

- 1 Use your Android phone.
- 2 Have the Taste Club website address ready.
- 3 Use Google Chrome for these steps.

It takes about one minute.

You do not need to visit the Google Play Store.

STEPS 1-2

Open Taste Club

Start in Google Chrome, then open the Taste Club website.

1 Open Chrome

Find the round, colourful Chrome icon on your phone and tap it.

2 Enter the address

Tap the address bar, type the address shown below, then tap Go.

izakayatasteclub.base44.app

Look for this icon

Chrome is usually on your Home Screen or in your app list.

Open the Chrome menu

The Chrome menu contains the option that installs Taste Club.

3 Tap More

Tap the three vertical dots beside the address bar, usually at the top-right.

4 Choose Add to home screen

In the menu, tap Add to home screen. Some phones may show Install app instead.

The More icon

Three vertical dots.

Install Taste Club

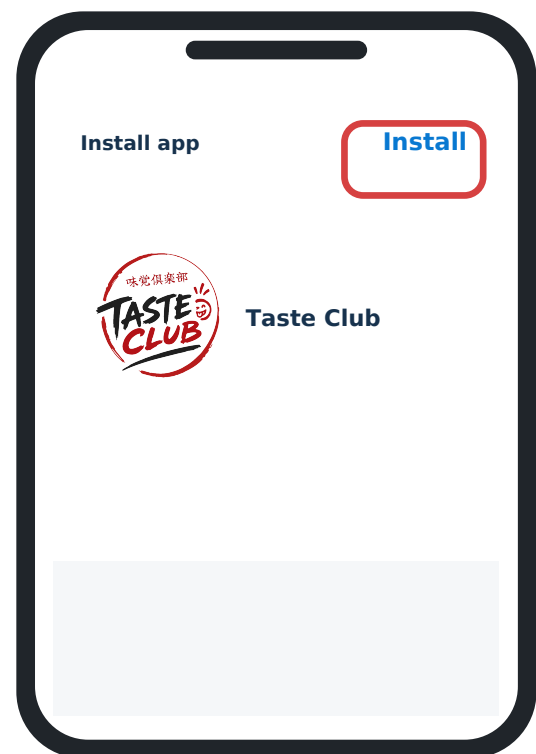

Confirm the app name, then install the Taste Club icon.

5 Check the app name

The install box should show Taste Club. Keep this name so the app is easy to find.

6 Tap Install

Tap Install and follow any on-screen instructions. The icon will appear on your Home Screen or in your app list.

Done

Find the Taste Club icon on your Home Screen or in your app list, then tap it.

If something looks different

Android phones can show slightly different menus. Look for the closest matching option below.

I cannot see Add to home screen

Look for Install app in the Chrome menu. It performs the same job for a supported web app.

I cannot see the More icon

Look for three vertical dots beside the address bar. On some phones, they may be at the bottom.

Can I change the app name?

Yes. Keep or enter Taste Club as the name before you tap Install.

How do I remove it?

Open Settings, tap Apps, find Taste Club, then tap Uninstall. You can also touch and hold its icon.
